## Description

Graceful and sculptural, this Blush Magnolia Branch Arrangement captures the timeless elegance of magnolia blossoms in a softly layered, naturalistic composition. Lifelike white blooms with subtle blush centers are paired with glossy green leaves and natural-looking branches, all thoughtfully arranged in a tall, clear glass vase with a weighted base for stability.

The vertical silhouette and organic branching create an effortless statement, ideal for entryways, consoles, dining tables, or corners that benefit from height and softness. Designed exclusively for decorative use, this arrangement delivers enduring botanical beauty without maintenance.
