Description

The Carved Beam Rechargeable Mini Lamp delivers the warm, intimate glow of a classic library light in a sculptural, modern form. Expertly crafted from luminous latte onyx, the solid stone body showcases natural banding and tonal variation that becomes beautifully illuminated from within. A discreet touch dimmer in a light antique brass finish allows for effortless ambiance control, while the integrated LED light system—rated for up to 50,000 hours—provides long-lasting, energy-efficient illumination with no bulb required. Completely cordless and rechargeable, this refined mini lamp is perfect for bookshelves, bedside tables, or intimate reading nooks, with each piece offering one-of-a-kind natural variation in the onyx.
