The Story

Little House on Linden was a premier art gallery founded in Homewood, Alabama, by Gene and Martha Smith in 1960. At a time when options were few, it became known for championing Southern artists while offering both fine art and custom framing to the region. Over the years, the gallery grew into a beloved and influential brand, ultimately becoming a major art destination throughout the Southeast.

Following the passing of Mr. Gene Smith, the gallery transitioned ownership and was eventually reimagined as what is now Christopher Collection. In honor of the building's original spirit, we named our exclusive upholstery line Little House—a tribute to decades of beauty, creativity, and the rich history that continues to shape this space.

Construction Details

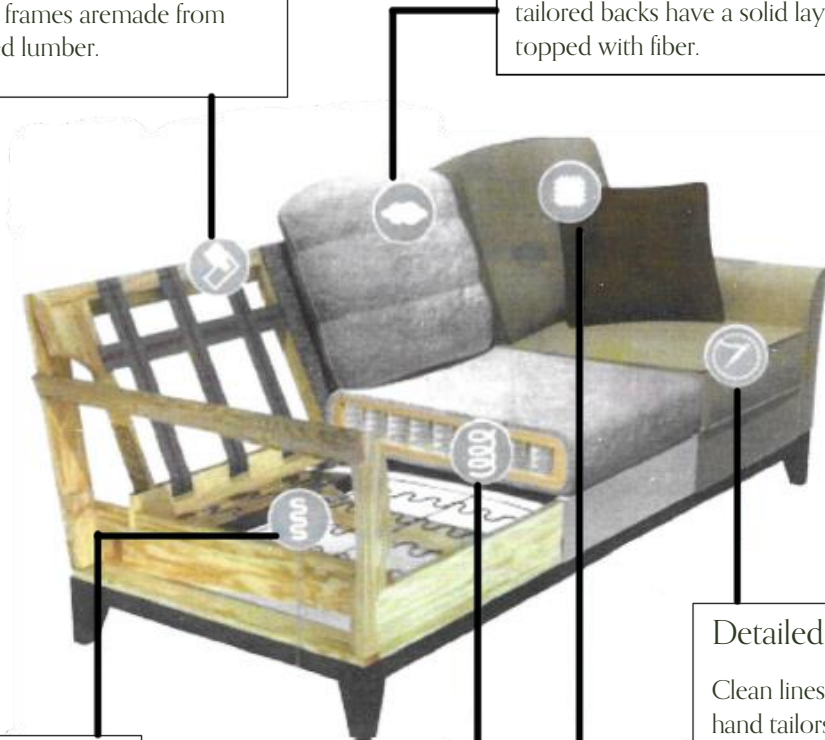

Look closer to see how Little House's commitment to detail fuses style, sustainability, and 100 years of craftsmanship.

Sturdy Frame

For maximum strength and durability, we use interlocking wood frames instead of nailed plywood. All frames are made from friendly FSC certified lumber.

Comfortable Back Cushions

For long lasting comfort and shape retention, the back cushions have multiple compartments to keep the fiber evenly distributed and securely in place. Tight tailored backs have a solid layer of foam topped with fiber.

No-sag Springs

Sinuous springs provide even, quiet support for deep seating comfort. For extra durability, Stone & Leigh uses 8.5 gauge steel connected to hardwood rails.

Seat Cushions

For comfortable seat cushions and tight tailored seats that last, Stone & Leigh uses high resiliency foam. Cushions that incorporate coil technology and are even longer lasting.

Detailed Fit & Tailoring

Clean lines that last, Stone & Leigh hand tailors upholstery to keep the cushion corners smooth.

Durable Covers

Fabrics and leathers that meet or exceed furniture industry performance standards.

DuraCoil

Pocketed coil insert encases in FR soy-based poly with low-melt polyester fiber.
