## Description

The Ring Around Table Lamp is a striking blend of sculptural artistry and refined luxury, expertly carved from a single piece of Michelangelo marble to showcase dramatic natural veining and rich tonal depth. The boldly contoured base creates architectural interest, while a crisp white linen drum shade with an integrated diffuser softens and evenly disperses light. Designed with a single socket and a rotary dimmer discreetly placed in the base, this sophisticated marble table lamp allows you to adjust the ambiance while subtly illuminating the stone for a warm, radiant glow. A true statement piece for bedside tables, consoles, or living room accents, each lamp features unique natural variations in the marble, making every piece one of a kind.
